

# You're Invited!

Join Michigan Craft Beverage Council's Grower Directory List.

As a part of our mission, we want to connect growers and crafters.

## Benefits of a Grower Directory

Michigan growers, producers, and specialty crop groups are valued resources for state economic development. By sharing your information, you can help shape and grow the craft beverage industry in Michigan!

For more information reach out to:

**Jenelle Jagmin**  
Director of Michigan Craft Beverage Council

**\$253** million contributed annually by wine and hard cider tourism

**9<sup>TH</sup>** in the nation for wine production **175** wineries

**3<sup>RD</sup>** in the nation for apple production

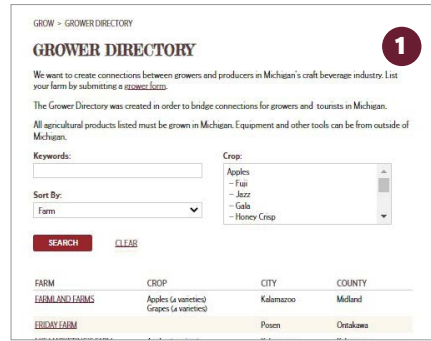

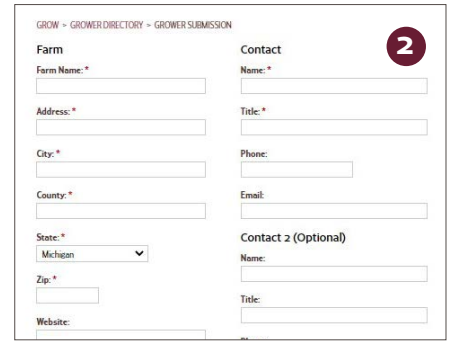

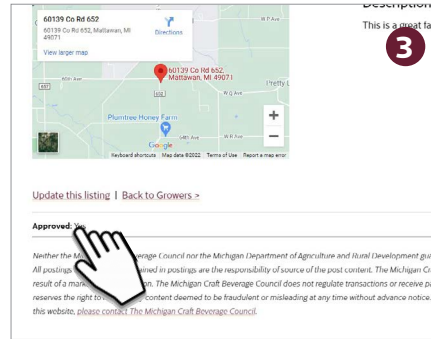

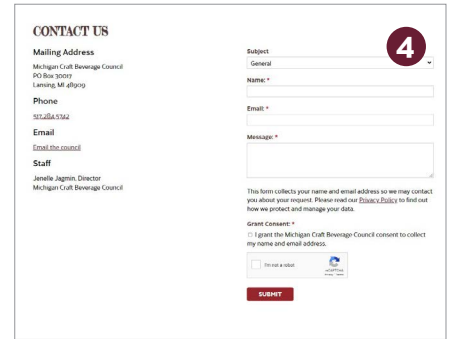

# Growers

## Why should you get listed?

- Become a valuable source for Michigan producers of craft beverages.
- Grow connections in Michigan's thriving craft beverage marketplace.

## How do you get listed?

1. Go to [grower directory](#) to see if your farm is already listed.
2. If there isn't a listing, submit an entry form to create one!
3. If you're already listed, but need to make corrections, click Update this Listing.
4. Send us an email with your correction in the form.

# Grower Groups

Specialty crop grower groups can share a CSV file of multiple entities. To learn how, contact: Jenelle Jagmin at [jagminj@michigan.gov](mailto:jagminj@michigan.gov).

# Craft Beverage Producers

## Why should you use the grower directory?

- Source local crops for the production of your Michigan craft beverages.
- Develop relationships with your local suppliers to grow your base.

## How do I use the grower directory?

1. View the [grower directory](#).
2. Search by crop or a specific sub-variety of crop.
3. View all of the growers available for that specific search.
